

Masterbatches for **MULTIFILAMENT YARN**

High-Performance Masterbatches for **MULTIFILAMENT YARN**

Solution to your biggest problems

→ No Screen Choking or Filament Breakage

Excellent dispersion prevents filter blocking and ensures continuous extrusion

→ No Denier Variation

Low FPV and consistent melt flow guarantees uniform thickness

Excellent

Low
Dosage Req

Capabilities

→ Custom colour matching with rapid turnaround

→ Manufacturing capacity of 18,000 MT / year

→ Twin-screw extrusion lines (Steer)

→ In-house testing capabilities:

Spectrophotometer • FPV tester • Pilot film plant • MFI tester • Colour matching cabinet • Injection molding machines • Ash content tester • Moisture analyzer

→ RoHS, REACH, FDA compliance certificates available on request

Colour Masterbatches

COLOUR	SHADE		DOSAGE
Black			0.5% - 1%
Blue			
Green			
Red			
Orange			
Yellow			
Pink / Violet			
Brown			
White			
Custom Colours	Match exact shade, gloss & opacity via Sample / Pantone / RAL		

Functional Additive Masterbatches

ADDITIVE	FUNCTION	DOSAGE
Polymer Processing Aid (PPA)	Improves runnability and surface finish	0.25% - 1%
UV Resistant	Prevents degradation from sunlight	1% – 5% (Depending on service life)
Optical Brightener (OB)	Boosts brightness for a premium, glossy finish	0.5% - 1%
Softener	Enhances softness & prevents filamentation	1% - 2%
Antioxidant	Prevents thermal degradation & extends lifespan	0.25% - 1%

Aangee Compounds LLP is a leading manufacturer of masterbatches and compounds, serving the plastics industry for 25+ years. Based in Ahmedabad, Gujarat, we deliver custom colours and tailored properties with consistent quality. Backed by deep technical expertise and a strong problem-solving mindset, we help customers overcome performance and processing challenges with confidence.
