

Masterbatches for **PET & PP STRAPS**

High-Performance Masterbatches for PET & PP STRAPS

Solution to your biggest problems

→ No Splitting

Superior structural integrity eliminates splitting under heavy loads.

→ No Filter Choking / Die Build-up

Excellent dispersion prevents screen clogging and pressure drops.

Capabilities

- Custom colour matching with rapid turnaround
- Manufacturing capacity of 18,000 MT / year
- Twin-screw extrusion lines (Steer)
- In-house testing capabilities:
Spectrophotometer • FPV tester • Pilot film plant • MFI tester • Colour matching cabinet • Injection molding machines • Ash content tester • Moisture analyzer
- RoHS, REACH, FDA compliance certificates available on request

Explore our selection of PET-based and PP-based masterbatches engineered for box strapping applications

Colour Masterbatches

COLOUR	SHADE	DOSAGE
Green		
Black		
Red		
Blue		
Yellow		1% - 2%
Orange		
White		
Custom Colour	Match exact shade, gloss & opacity via Sample / Pantone / RAL	

Functional Additive Masterbatches

ADDITIVE	FUNCTION	DOSAGE
Anti-split & Seal Enhancer	Anti-split protection and superior sealing for straps.	1%
Optical Brightener (OB)	Enhances brightness for premium look	1%
UV Resistant	Prevents degradation from sunlight	1% - 2% (Depending on service life)

Aangee Compounds LLP is a leading manufacturer of masterbatches and compounds, serving the plastics industry for 25+ years. Based in Ahmedabad, Gujarat, we deliver custom colours and tailored properties with consistent quality. Backed by deep technical expertise and a strong problem-solving mindset, we help customers overcome performance and processing challenges with confidence.
